

ROAD PRO

Merk: ROADPRO

Type: BASE-001

Use for:

President Johnson-3-Plus
and others

RADIO CABINET:

The RoadPro BASE-001 is a radio cabinet designed to integrate your mobile radio plus your power supply. It is designed to fit Samlex Power Supply Models SEC-1212 or SEC-1223. When properly installed, the RoadPro BASE-001, will allow maximum airflow around your transceiver. Please read the instructions before assembling the base radio cabinet.

CONTENT OF PACKING:

- 1 Pc of Radio Cabinet
- 1 Pc of User Manual in English

ASSEMBLY INSTRUCTIONS:

1. Power Supply: Turn “OFF” and unplug from AC source.
2. Power supply has 2 small cover screws on both sides.
Remove all 4 of these. Keep these separate for re-use.
3. Do not remove cover from Power Supply
4. Radio: Make sure power is “OFF”. Position the radio in the cabinet and align the threaded holes (intended for the mounting bracket) on each side of the radio with the holes in the cabinet.
Use the bracket mounting screws to fasten the radio in the cabinet.
Do not over-tighten the screws.
5. Hold the cabinet with the radio over the power supply.
6. Re-Align the holes in the radio cabinet and the power supply cover with the threaded holes located in the power supply chassis.
7. Replace the 4 small cover screws to secure the cabinet to the power supply.
8. You are now ready to make the DC connections from your radio to the Power Supply.
9. You are now ready to make the antenna connection, please follow the manufacturer instructions.
