Description

The Delta M2 is a cardioid dynamic vocal desk base microphone offering heavy duty metal housing for industrial, Ham and CB radio applications.

The microphone switching is accomplished with a simple “push to talk” button with locking capabilities. The volume and tone can be adjusted with the potentiometers located on top of the microphone base with an on/off switch on the microphone for stand by mode.

Specification

Type: Cardioid dynamic

Impedance: 270 ohms

Frequency Response: 40-1.5 kHz

Output Level: -44db below 1.5 volt at 1 mega ohm impedance

Output Adjustment: Approximately 40dB range

Output Impedance: 5k ohms

Switch control: Push to Talk and Locking

Microphone On-Off switch supplied on the 45 degree forward and 80 degree backward self-tensioning head.

Cable: 3 ft four conductor two shield coil cord (4 pin connector factory installed)

Finish: Durable metal base with chrome or gold microphone

Power: 9 Volt battery required (not included)

Weight: 66 oz.
