

PREMIUM  
ALUMINUM SERIES

## Fire Mic Keeper®

### Hammerhead's Guarantee of Quality

If you are not satisfied with any Hammerhead Product, we will replace it or refund your money within thirty days after purchase through the original dealer. Hammerhead Industries warrants its products against manufacturing defects in workmanship or materials. The warranty is void if the product has been abused beyond normal and sensible wear and tear or used for purposes other than intended.

### Cable/Line Warranty & Rebuild Policy

All Gear Keeper Retractors are manufactured with the highest quality cable/line. Occasionally inspect the cable/line for signs of wear in order to prevent loss of gear. Hammerhead Industries will replace the cable/line for a service charge of \$8.00.

Please contact Hammerhead Industries for a Return Authorization Number and mailing instructions.

If upon receipt of retractor Hammerhead determines that other components vital to the retractor are worn beyond their useful life, the \$8.00 will be returned and no repair will be done.

#### WARNING:

#### Do Not Release Retractor End When Fully Extended

Retraction may be rapid and forceful, resulting in injury and/or damage to the product.

### CNC-Milled Aluminium Case

This rugged, precision-milled case is built for the long haul! It'll look great and hang in there for as long as you're on the road.

### Smooth Operation

You'll appreciate this quality build, every time you reach for your mic.

### Lifetime Repair/Refurbish

No need to worry about wear and tear. We'll repair/replace anything that goes wrong for as long as you need it (except for the case, because it's built to last longer than you will).

SEE POLICY FOR DETAILS

## Fire & Safety

**Keeps Mic Handy • Prevents Loss • High Break Strength**

## **Retractable Mic Keeper®**

**12 oz. Retraction Force / 20" Extension**

- ▶ Gear Keeper® Retracting Tether mounts and suspends Mic from Mic tab, radio pocket or pack strap
- ▶ Grab Your Mic, Use It, Let It Go... It Retracts Back Every Time
- ▶ No more dragging under foot, fumbling for your Mic or trying to clip it back on

### **Mic Attachment**

1. Stretch elastic lanyard over Mic lapel clip

2. Firmly seat elastic lanyard over Mic lapel clip hinge

### **Mounting System**

#### **Threaded Stud Mount**

Threaded pin (stud) penetrates Mic tab, radio pocket or webbing strap. Threads into back of Gear Keeper.

### **Quick Connect (Q/C)**

Mic can be easily disconnected/reconnected

#### **Warning!**

Penetration of Turnout Coat (other than external tabs or pockets) may result in violation of NFPA standards or may void manufacturer's warranty.

### **Specifications**

- Nylon Coated Stainless Steel Cable
- Stainless Steel Spring & Hardware
- 20" Extension
- 12 oz. Retraction Force
- 60 lbs. Breaking Strength
- High-Temp Housing
