

# VQ3

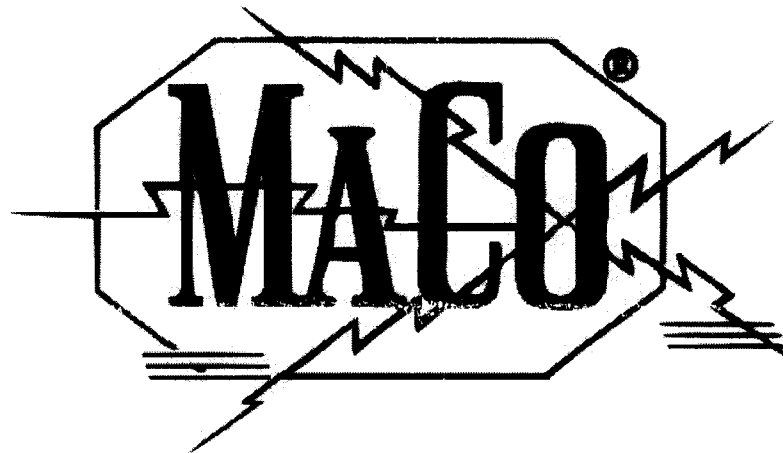

Maco introduces the new VQ3 V-Quad® Antenna that has been designed and tested by the Maco Engineering Department over the last 18 months. The VQ3 is a 3 element full wave antenna that is great for DXing. It is directional and can be used on horizontal and vertical polarization with one feed line. The VQ3 is tunable for 10 or 11 meters.

As always, the Maco® gamma match is fully adjustable to obtain the lowest SWR.
