WIRELESS RV CAM

CAMPER «PLUG AND PLAY»
REVERSE CAMERA KIT

Camera.

WIRELESS RV CAM

Camper and caravan plug and play reverse camera.

It has an immediate installation thanks to the suction cup attachment of the monitor and the magnetic base of the camera that require no configuration. The wireless rear view camera can eliminate most blind spots and offers safer angled viewing when reversing.

KEY POINTS

- Very simple installation
- Battery autonomy: 6-8h
- Security/Surveillance of the rear of the vehicle, inside the trailer
- Maximum comfort and assistance in manoeuvres (including trailer coupling).
