DASH CAM

Street Guardian Flat is the thin **FullHD** camera with a discreet design for those who want to feel safe while driving, thanks to **video recordings complete with sounds**, without giving up a clean windscreen with complete vision.

Integrated microphone and speaker.

It connects to the cigarette lighter socket via the 12 V cable and can be easily installed on two cars, thanks to the adhesives included in the package.

WI-FI

You can use the Wi-Fi to place the camera and set it up during the assembly/installation on the car.

You can also review and download the clips directly onto your smartphone without having to connect the camera to a PC (thus avoiding removal from the vehicle).

Recommended apps: FinalCam and LuckyCam.

BLACK BOX AND MOTION DETECTION

The Black Box function makes the camera save and automatically protect the clips in case of an accident. The Motion Detection function causes the camera to start recording every time it detects a motion in the viewing range (requires the camera to be powered).

PARKING FUNCTION

The parking function causes the camcorder to automatically start recording whenever it detects a collision. No more unpleasant surprises for your parked car!

PACKAGING AND CODES

Camera, **2 adhesive supports**, cable with 12V cigarette lighter socket, USB cable to connect to a PC.

code C1409
