

MODEL NO : 44-0091

CAR ELECTRIC KETTLE

Introduction

1. User friendly. Good choice for self drive travel and long-distance transportation drivers.
2. Compact size and portable.
3. Multifunctional Usage: Water, milk, coffee, noodles heating and pouring cup as well.
4. Double protection: Dry heating protection and Automatically Power-off Protection.

Specification :

1. DC: 24V/250W
2. Heating Time: 15min.
3. Capacity: 0.5L

User Guide:

1. Do not fill the kettle with water above the maximum water level mark or the hot water will overflow and extend water heating time.
2. Press the lid gently.
3. Plug into car cigarette lighter socket. The product starts working when the indicator is on.
4. Auto switches off when heating work is finished and pull out the plug.

Cleaning:

1. If the kettle contact salt, oil or other corrosive object when using, use hot water and cloth to clean after using,
2. If incrustation occurs, pour edible white vinegar or edible citric acid mixed with boiled water into the kettle and fill 1/3 of the unit, soak for 2-3 hours then clean by water and cloth.
3. Regularly clean the incrustation to ensure unit useful life, heating efficiency and energy cost.

Precaution:

1. Do not immerse the kettle in liquid.
2. Keep away from children when boiling.
